## New Business:

### 1. New FAA Registration Marking Requirements

**EFFECTIVE Feb. 25th 2019: ALL MODEL AIRCRAFT MUST HAVE THE FAA REGISTRATION NUMBER ON THE OUTSIDE OF THE AIRCRAFT**

Recently the FAA issued an Interim Final Rule requiring that all drone and model aircraft pilots legibly display their FAA registration number on the exterior of their aircraft effective February 25th. There is no requirement for where on the aircraft or how large the registration number must be, only that it be legible upon "close inspection".

Full notice from the FAA: <https://www.faa.gov/news/updates/?newsId=93045>

We have until March 27th to comment, but this rule is enforceable and effective as of February 25th.
